

“The kitchen is the engine of the home”

— MICHAEL ROGERS (MANAGING DIRECTOR)

CONTEMPORARY KITCHEN

Incorporating hard angles & brushed metal accents, Modern & Contemporary kitchen designs seek to create a warm and welcoming environment, that will never go out of style. The no-nonsense and clean approach lends itself perfectly to large or small spaces & the lack of clutter in the design is an excellent attribute for those looking to create something striking and timeless.

Soft-close handleless doors compliment the fresh & effortless look of a contemporary kitchen design. Subtlety is the key to creating a clean feel that can be completely changed with the addition of something minimal, such as a feature pendant lighting, bar stools or coloured glass splash-backs;

We understand the importance of your kitchen being created personally for you & will design for your family & lifestyle.

**Project Date: 2019,
Haywards Heath**

A functional open-plan space incorporating bespoke ceramic doors, Corian worktops & SPEKVA breakfast bar.

LEICHT®

Project Date: 2018, Hove

This kitchen design elevates the contemporary style of the property & offers functionality along with a pleasing aesthetic to the whole space.

**Right: Project Date: 2023
Shoreham Beach**

Taupe Grey tall units with Dekton 20mm Argentium worktops give a calm aesthetic to this beachside open plan kitchen dining area.

Project Date: 2024, Hove

Our Client tells us: "From beginning to end dealing with everyone at Design Interiors was an absolute pleasure. I fell in love with the light bronze metal cupboard doors. Planning was meticulous and careful thought given to every detail to achieve a look that is sleek, modern and stylish but also a kitchen that is practical and functional. Fitting was on time and completed with quiet efficiency, skill and competence by Neil and Ollie. Thank you to Lindsey and Tim. Design Interiors are selling a quality premium product. They are friendly, approachable, and knowledgeable so you feel you are in safe hands."

A big thank you to the whole Design Interiors team."

TRADITIONAL KITCHEN

Traditional kitchen design has remained a consistently popular style among those seeking a new kitchen. A traditional kitchen is reflective of the outside world and the never-ending beauty of nature.

A contemporary twist can be applied to your luxury kitchen design when considering the combination of door style, colour palette, handles & worktops. Equally these elements along with a primary function range cooker & mantle can have your luxury traditional kitchen design lean more towards the true & authentic traditional style. Natural shapes, as well as exposed wood grains, are key features that often distinguish traditional kitchen design, whether they are used as a main feature or as the smallest accent. The colour pallets, combined with the natural wood, give an immediate feeling of warmth, and can add much needed character to your new bespoke kitchen.

Our expertise in design will help & guide you throughout to create a kitchen unique to you & your style.

Project Date: 2024, Hove

It was important that the island offered various seating options for family life & when hosting parties.

Architect: Mohsin Cooper Architects

STORAGE

Everyone needs more storage in their kitchen. It doesn't matter how much space you already have, you'll always need more. Design Interiors will create clever and bespoke storage options to help de-clutter and re-organise your kitchen from the top down.

All images are from projects by Design Interiors Ltd & show various storage options for your new kitchen design.

BEDROOM

Our luxury bedrooms are Italian manufactured & are available in a choice of 3 internal finishes from, linen effect to plain colour or timber. Internal configurations are designed specifically to you & offer a variety of drawer packs, hanging rails, pull out mechanisms & shoe racks. Internal lighting adds luxury & ambiance to your luxury bedroom design.

The specialist team at Design Interiors can help bring your ideas to life, and our vast range of options will ensure that you walk away with a truly unique result.

“The bedroom is your sanctuary, a space designed for peace and tranquillity.”

LIVING

We can make your living area come to life with bespoke fitted shelving, TV & storage units. Lighting systems can be designed into these features, to help accentuate your personal space & create the right ambience for every occasion.

Design Interiors will create a room that is both functional and uniquely catered to you and your family.

**“Your living area is your
place to rest and relax.
It should be luxurious
and mould perfectly
with your own personal
tastes.”**

CREATIVE PLANNING

Design Interiors work on a no obligation design process, where our creative designers will help & advise throughout your design process.

We will guide & inspire your design arrangement, colour palettes & material choices. Design Interiors will help you create the perfect bespoke kitchen to bring your design dreams to life.

Design Interiors create bespoke and clever solutions on a one-on-one basis. We take pride in what we do, and we know that we do it well; leaving you happy with our creation, is the greatest feedback of all.

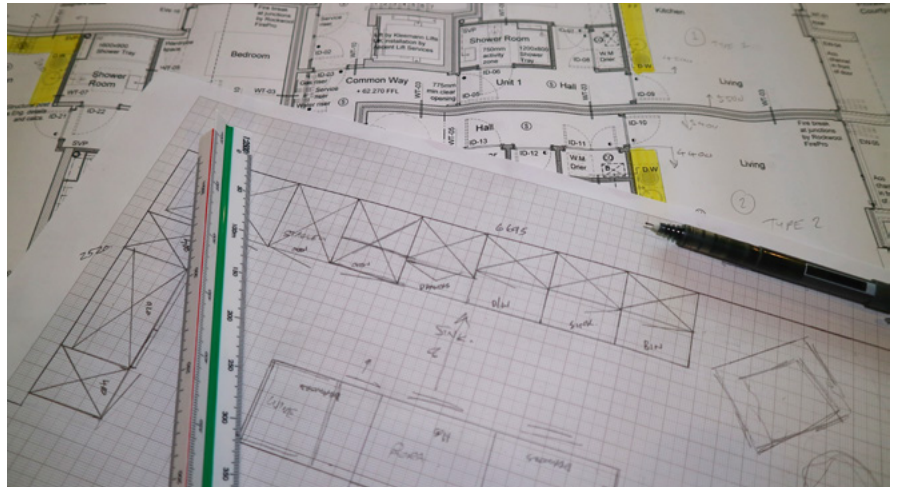

WHERE TO BEGIN...

Your designer will discuss your specific requirements, design ideas & lifestyle to create a design personally for you.

If you are working with an architect, we can begin your design from the scale drawings.

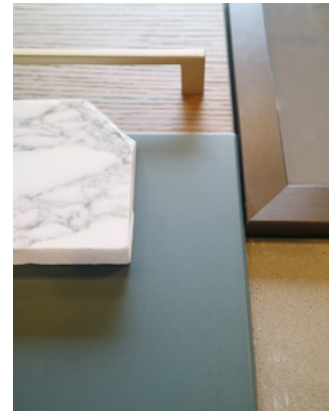

If you are renovating an existing space, we can visit your home to measure the space, to begin creating your design.

THE NEXT STEP...

Once your design has been created, your designer will invite you to our Hove showroom for coffee, to review & feedback on the arrangement.

They will work closely with you to choose your design materials, colours & finishes, to then provide you with a quotation.

INSPIRING DESIGN...

A visual, based on your previous design amendments & material choices, will be created. In this meeting, you will see your design come to life & will discuss the quotation breakdown.

Both design & quotation are workable with the help & advise of your designer, until you reach a happy balance between the two.

IDEA TO REALITY...

Your designer will advise on lead times to ensure we work to your project timeframe & deadline.

Our designs include the removal of your existing kitchen & the installation of your new design from our experienced & qualified installations team.

TAKING CARE OF YOUR PROJECT

Design Interiors have a wealth of project experience & can organise your schedule of works, so you don't have to.

Having a person project manage on your behalf helps ensure your project is completed on time, within budget & with the expected high-quality result.

TAKE THE STRESS AWAY

Managing your project schedule of works can be complicated & stressful;

Having someone manage your project ensures the smooth & seamless experience from rip-out & first fix throughout the installation & second fix through to completion. Every detail is considered & managed on your behalf to have your design elements operational at the earliest opportunity.

Design Interiors have a dedicated & talented team of electricians, plumbers, decorators, tilers & more. A team that work together on a regular basis, strengthens the progress & quality of your project.

Having a committed professional manage the project is the perfect solution to take the stress away from you & your family during your home renovation.

CONSTRUCTING YOUR DESIGN DREAMS

Finding a builder that you feel comfortable & confident with can be a long process. Recommendations & portfolios are key when it comes to finding a reliable, quality building team.

Design Interiors' in-house building team can carry out various building works to aesthetically enhance your property adding luxury & elegance to your space. Our knowledgeable & talented team are experienced in loft conversions, internal re-configurations, extensions, structural work, be-spoke carpentry & luxury flooring.

From planning permission, building control & structural engineering our building team will help & guide you throughout to make the process stress free, smooth & seamless from start to finish. With their full team of trades any electrical, plumbing, plastering & decorating works can be carried out under one team at Design Interiors.

When working with our team on your project, our building manager will work closely with you to provide a clear breakdown of works, costings & timescales.

Giving yourself plenty of time to understand & agree the schedule of works ahead of the work starting will ensure you feel comfortable & confident with your project pipeline.

ABOUT

Guiding our customers through the process from design and installation to completion has always been my driving force. I strive to ensure that once the work with our client is complete, not only are they satisfied with our work, but they also understand the functionality of their new design. I want people to think of Design Interiors as a safe pair of hands that are here to guide them through the process of making their dreams a reality.
